Prospectus

Mount Saint Mary's College was founded in 1808 by Rev. John Dubois, who afterward became Bishop of New York.

In 1830 it obtained its first charter from the legislature of the State of Maryland. The College is registered in full by the Regents of the University of the State of New York. It can be readily seen how great an advantage is connected with this registration, since the Degree of Bachelor of Arts, conferred by Mount Saint Mary's College, entitles its holder to enter at once upon university work.

Since its foundation there has been maintained in connection with the College an Ecclesiastical Seminary. Many of the students of this department defray their expenses, wholly or in part, by teaching in the College.

The institution is directed by an association of secular clergymen who, with several lay professors, compose its faculty.

Its material interests are controlled by a Board of Directors, of which the Archbishop of Baltimore is, *ex-officio*, the President.

At the annual meeting of the Council of the College, held on Commencement Day, June 15, 1905, it was unanimously agreed to form in connection with the Council an Advisory Board, whose duty it will be to act with the Council upon all matters pertaining to College welfare except studies and discipline. It was the sense of the meeting that such a body would be of great benefit. In doing this the College gladly acknowledges the services of its lay alumni in the past, and invites a more intimate coöperation from them in the future.

The following gentlemen were elected to constitute this board:

A. V. D. Watterson, LL.D., Pittsburgh, Pa.

Richard M. Reilly, LL.D., Lancaster, Pa.

Edward J. Dunphy, LL.D., New York, N. Y.

John F. Cogan, A.M., Brooklyn, N. Y.

Francis P. Guilfoile, LL.D., Waterbury, Conn.

Location and Buildings

The College buildings are beautifully situated on high ground at the foot of the Maryland range of the Blue Ridge Mountains. The location is healthful and convenient of access. The celebrated College and Academy of St. Joseph and the Motherhouse of the Sisters of Charity, founded by Mother Seton, are in the immediate vicinity.

To most parents not the least of the many advantages offered by Mount Saint Mary's College is its quiet seclusion and remoteness from the distractions and dangers of the city—its very situation making it an ideal home of study and moral development. The vicinity of the College is a pleasant summer resort.

The buildings are substantially constructed of stone. The class-rooms, study halls and dormitories are spacious, well ventilated and comfortable in both summer and winter. For illumination, acetylene gas is used throughout the buildings.

All the buildings are heated by steam and supplied with the most approved system of lavatories, bath and toilet rooms. In a word, the appointments of the buildings throughout meet all reasonable requirements for health and comfort.

Minim Department

In addition to the buildings described above, there is a separate department for small boys. These boys have their own study hall, class-rooms, dormitories and playground.

Recreation Grounds

The recreation grounds are extensive, including several terraces and a beautiful grove. Besides these features there is one of the finest athletic fields in the country. These grounds afford to the students every facility for baseball, football, running, tennis and other outdoor sports.

During recreation hours students are permitted to leave College bounds in the company of a prefect or tutor for walks through the country.

The Gymnasium

The Gymnasium is a handsome, substantial building, complete in all modern equipment. It contains under one roof, bowling alleys, a large billiard hall, a society hall, baths and a large swimming pool. This building is to the students at all times a source of the greatest pleasure and health.

In connection with the gymnasium there is given a full course of Physical Culture.

Government

The effective though unobtrusive supervision of the clergy, aided by the constant presence of the prefects, secures the peaceful reign of good order, industrious application to study and obedience to the laws of morality and social propriety. Gentle reproof, kindly correction, the instinct of honor and, above all, moral and religious influences, are generally found effective in the maintenance of College rules, discipline and study. All are instructed in the doctrines of the Catholic religion and trained to the practice of Christian morality. Vocations to the clerical state are frequent in the higher classes, and the piety and purity of youth are guarded and promoted in every possible way.

Domestic Department

The Domestic Department and Infirmary are under the direction of the Sisters of St. Francis, whose eminently successful work is ample guarantee that the material comforts of the students are at all times carefully consulted. In sickness and in health the students are treated with the greatest kindness and solicitude. The College authorities gratefully acknowledge the invaluable assistance of the Sisters, regarding them as a very important adjunct to the success of the College.

Conditions of Admission

All applicants for admission into the College must present satisfactory letters from their pastors, or other persons known to the authorities. Those coming from other colleges must also

present certificates from the superiors of these institutions, stating the studies made and vouching for the good conduct, industry and honorable dismissal of the applicant.

Students will be received at any time.

Examinations

The classes of new students are invariably determined by examinations at the time of entrance.

Monthly written examinations are held in those classes in which the nature of the work permits.

Public examinations take place half-yearly—in January and June. Besides the oral examinations at the end of the school year, there is also a general written examination, by which are determined the first honors of the College, consisting of a gold medal in each class.

Students attending the College for more than one year are promoted in course at the beginning of each scholastic year, if they have attained the required standard in class work, and in the public oral and final written examinations of the preceding year.

Reports of all the classes are read monthly in the presence of the Faculty and students, and are then sent to parents or guardians.

Courses of Studies

College Course

The College course, which must be followed by those who desire to take the degrees, embraces the Latin and Greek languages, French or German, Mental and Moral Philosophy, Logic, Mathematics, Chemistry, Physics, Geology, Rhetoric and Literature, History, Christian Doctrine and Elocution.

The study of Chemistry, Astronomy and other sciences is facilitated by an excellent apparatus, a chemical laboratory and an extensive mineralogical collection.

In connection with this there has been inaugurated a special three years' course for the benefit of students preparing for a scientific career. Only those who have completed all the studies of the Freshman Class are permitted to enter this course.

GYMNASIUM

The successful completion of this course leads to the degree of A.B.

The Preparatory or Academic Course

The Preparatory or Academic course, which is a preparation for the College course, is a classical High School. The curriculum of studies embraces Latin, Greek, English Grammar and Rhetoric, French, German or Spanish, Arithmetic, Algebra, Geometry, History and Christian Doctrine. This course covers a period of four years. Only those who have successfully completed the regular Grammar course in a recognized school will be admitted to this department. A student who cannot produce a satisfactory certificate will be examined and listed accordingly.

Special classes will be formed for the benefit of those who are not sufficiently advanced to enter the Academic Department.

There is a Business Course in which the study of Latin and Greek is optional, and more attention is paid to commercial studies, such as Bookkeeping, Commercial Law, Mercantile Accounting and kindred branches.

All are required to follow the course of studies prescribed for the department into which they enter.

Degrees

The Degree of Bachelor of Arts is conferred on those students who have followed and completed the regular collegiate course, subject to the following conditions:

1. At least the last year of the course must have been made in this College.
2. Each candidate, both in the January and June examinations in all the classes of the Senior Course must have attained the standard required by the rules for graduation.
3. He must prepare a literary essay or discourse satisfactory to the Faculty, and deliver the same in public on Commencement Day, if requested to do so.

The Degree of Master of Arts is conferred on those students who, for at least two years after taking the degree of A.B., have devoted themselves to additional studies, or to some literary pursuit or learned profession, and who make timely application for the degree.

College Sessions

The sessions 1915–1916 of the College begin Friday, September 10, 8:30 a. m., and the first day of February, continuing five months each.

The Christmas recess begins December 23, 1915 and ends on the evening of January 6, 1916. The Easter recess begins on Wednesday of Holy Week and ends on the evening of Thursday after Easter Sunday. If students leave College during recess they must return promptly on the appointed day. No student will be permitted, except for reasons of absolute necessity, to absent himself from College at any other time during the school year while classes are in progress.

Students returning late in September, or failing to report promptly after the Christmas or Easter recess, forfeit their right to compete for prizes and honors.

It may be well in connection with this to call the attention of parents and guardians to the necessity of insisting that those under their charge be trained in habits of promptness and punctuality. Students are required to return on the day appointed. Violation of this rule, unless accompanied by a *written* explanation satisfactory to the College authorities, may subject the student to suspension or dismissal. The College, therefore, asks from parents and guardians a most cordial coöperation in this and all other matters pertaining to College discipline.

Recreation Days

Besides the regular weekly holiday—Thursday—the Sundays and Holy Days of Obligation during the year and the Christmas and Easter holidays, the following are the only days on which classes are regularly suspended:

The day following the annual Spiritual Retreat at the end of October.
The day following Thanksgiving Day.
The day following the close of the mid-year examinations.
Washington's Birthday.
Saint Patrick's Day.
Decoration Day.

Charges—Senior Department

Board, Tuition, Use of Room by *one*, Washing and Mending of Linen, Medical Attendance and Medicines, Gymnasium, Physical Culture and Reading Room, per session of five months. $215.00

Board, Tuition, Use of Room by *two*, Washing and Mending of Linen, Medical Attendance and Medicines, Gymnasium, Physical Culture and Reading Room, per session of five months. 200.00

Tuition—for day pupils, per session of five months. . . . 30.00

Private Rooms

The completion of the magnificent new Seminary building has made available many more private rooms. However, as the demand for the private room is ever on the increase, the College finds it necessary to say that no room for the coming year will be reserved unless proper application is made before the first day of August. After that date a room will be considered vacant and will be given to the first applicant provided his character, class standing and application so warrant. In case of several applications coming at the same time the preference will be given in the order of seniority of classes.

Charges—Minim Department

Board, Tuition, Washing and Mending of Linen, Medical Attendance and Medicines, Gymnasium, Physical Culture and Reading-room, per session of five months, 132.50

Extra Charges

Any Modern Language, taken out of course, per session. $5.00

Laboratory, per session. 10.00
Use of Instruments in Classes of Physics and Biology, per session 5.00
Vacation Board. 80.00

Bills are rendered twice a year, in September and February, and must be paid *in advance*. When bills are not paid on presentation, the College reserves to itself the privilege of issuing a *draft* for the amount, and the non-acceptance of such draft will be considered a notice of the student's withdrawal, unless a satisfactory explanation is made.

Every student from outside the United States must have a guardian or representative in this vicinity, who shall be responsible for the regular payment of his expenses, and with whom the College may readily correspond whenever necessary.

No deduction will be made in case of withdrawal during a session, except for cause satisfactory to the College authorities.

Students may enter at any time, and will be charged only from the first of the month in which they enter.

Every student should have on entering, at least two suits of heavy and two suits of light outer clothing, three suits each of heavy, medium and light under-clothing, a set of table napkins, a napkin ring and one-half dozen towels.

In regard to pocket money, the College would suggest to parents and guardians the wisdom of economy. The College will not advance money for this purpose, preferring to leave the matter entirely and directly between parents and guardians and the students. In future, therefore, this item will not enter into the bills rendered by the College.

Books, stationery and clothing will be furnished at current prices by the College, at the request of parents, provided a deposit to pay the probable cost is made *in advance*. *Positively* no money or other articles will be furnished to any student by the Treasurer *unless such deposit has been made in advance*.

Parents and guardians must see the reasonableness of this rule and should, therefore, either supply their boys with all necessary articles of clothing, etc., or deposit *in advance* with the College Treasurer funds sufficient to cover cost of same.

When a student is about to withdraw from College, timely notice must be given, his account settled and traveling expenses provided for.

Although the College is accessible by rail by way of Frederick, Hanover, Gettysburg, Hagerstown or Thurmont, the most convenient route is by way of Union Station, Baltimore, and thence over the Western Maryland and Emmitsburg railroads.

The annual vacation begins on June 16, 1915 (Commencement Day). The College reopens Friday, September 10, with Mass at 8:30 A. M. Students are required to be present on the evening preceding, September 9. The retreat for members of

the Ecclesiastical Seminary begins Thursday, September 2, at 7 P. M. All students in the Seminary must be present at noontime on that day.

Texts: Hickey–Cronin.

COURSE II, (Senior, Scientific). Two periods a week throughout the year.

Definition of Ethics; Fundamental Ethics; Law; Conscience; Moral Standard.

Applied Ethics: Right; Duties of Man: towards himself, towards others; Mind; Body; Individuals; Property; Family; State.

Latin

Course I, (Freshman). Four periods a week for two terms.

First Term—Grammar. Arnold's Prose Composition, Part II, Lessons I to XVII. Prosody (Casserly). Virgil, Æneid, Books VI and IX carefully studied and Book X for sight translation.

Second Term—Cicero, Pro Ligario and Pro Archia. Pliny, Letters. The grammar and principles of style to be applied by practical exercises in class. Study of mythological references.

Course II, (Sophomore, Classical). Four periods a week for two terms.

First Term—Horace, Selected Odes and Epodes. Ovid, Metamorphoses (Rapid Reading). Rules of Prosody applied to the scanning of the verse. Practice in the construction of hexameter and other lines.

Second Term—Livy, Book I. Cicero, De Amicitia, De Senectute. Written composition in which the style of the authors is imitated. Frequent reference to rules of grammar illustrated in the texts read.

Course III, (Junior, Classical). Two periods a week for two terms.

First Term—Horace, Epistles and Satires. Prosody. Grammar. Mythology kept in view, as the text may require, to bring out full meaning.

Second Term—Livy, Book XXI. Seneca, Letters. At least one Latin dissertation required every two months on some given subject. Some time will be devoted to epistolary style as illustrated in the Letters of Seneca, Cicero and Pliny.

Greek

Course I, (Freshman). Three periods a week for two terms.

First Term—Homer, Odyssey, Books I and IV. Lyrical Poetry. Study of Homeric Dialect. Grammar for constant reference. Practice in Greek Composition.

Second Term—Plato, Apology and Crito. St. John Chrysostom, Eutropius. Frequent composition based on texts.

Course II, (Sophomore, Classical)—Three periods a week for two terms.

First Term—Æschylus, Prometheus and Agamemnon. Study of the Greek Tragedy.

Second Term—Demosthenes, De Corona. Æschines against Ctesiphon. St. Basil, the Right Use of Pagan Literature. Grecian Oratory.

COURSE III, (Junior, Classical). Two periods a week for two terms.

FIRST TERM—Sophocles, Œdipus Rex, Antigone.

SECOND TERM—Thucydides, Books I and II; St. Gregory, the Machabees.

English

COURSE I, (Freshman). Four periods a week for two terms.

FIRST TERM—Quackenbos, Practical Rhetoric, Part I. Authors to be read: Irving, Poe, Cooper, Hawthorne. Compositions every week.

SECOND TERM—Quackenbos, Practical Rhetoric, completed. Authors to be read: Robert Hayne, Speech on the Tariff; Webster, Reply to Hayne; Longfellow, Lowell and Whittier. Composition as in First Term.

COURSE II, (Sophomore) Four periods a week for two terms.

FIRST TERM—Arnold, English Literature, begun. Authors to be read: Beowulf, Chaucer, Malory, Spenser. Frequent exercises in composition.

SECOND TERM—Lounsbury, History of English Literature. Critical analysis of some of Shakespeare's Comedies. Exercises in composition and versification.

COURSE III, (Junior). Four periods a week for two terms.

FIRST TERM—Arnold, English Literature, completed. Authors read: Shakespeare to Dryden. Composition in prose and verse.

SECOND TERM—Winchester, Principles of Criticism. Authors read: Dryden to Tennyson. Composition as in First Term.

COURSE IV, (Senior). Four periods a week for two terms.

FIRST TERM—Original research upon the epochs of Chaucer, Renaissance, Elizabeth. Composition in prose and verse.

SECOND TERM—Course of Poetry (by Professor of class) with research on Southwell, Milton, Dryden, Herrick, Wordsworth, Tennyson. The Essay and Novel. Addison, Burke, Newman, Richardson, Scott, Thackeray. Books of Reference: Palgrave, Golden Treasury; Sherman, Analytics of Literature.

Mathematics

COURSE I, (Freshman). Four periods a week for two terms.

FIRST TERM—Algebra, Probability, Continued Fractions, Summation of Series, Determinants, Theory of Equations.
Text: Fischer and Schwatt, Complete Secondary Algebra.

SECOND TERM—Geometry, Solid Geometry, completed.
Text: Milne, Plane and Solid Geometry.

COURSE II, (Sophomore). Four periods a week for two terms.
FIRST TERM—Logarithms, Logarithmic Series, Plane Trigonometry.
SECOND TERM—Spherical Trigonometry, Field Work in Surveying, Navigation.
Text: Wentworth, Trigonometry, Surveying and Navigation.
Tables, Crawley, Five-Place Logarithmic and Trigonometric Tables.

COURSE III, (Junior, Scientific). Two periods a week for two terms.
FIRST TERM—The aim is to familiarize the student with analytical methods of investigation; hence in addition to the study of Loci and their equations, the different systems and transformation of Coördinates and the general equations of the second degree, the Circle, the Parabola, the Ellipse and the Hyperbola are taken up. To this are added brief chapters on Solid Analytical Geometry and Higher Plane Curves.
Text: Wentworth, Analytical Geometry.
SECOND TERM—Differentiation is taken up as well as applications to problems in Maxima and Minima, Radii and Centers of Curvature and Curve Tracing. The standard methods of Integration together with application of Areas, Volumes, Rectification of Curves, Center of Mass, Moments of Inertia and many practical problems.
Text: To be announced later.

COURSE IV, (Senior, Scientific). Two periods a week throughout the year.
Descriptive Astronomy together with mathematical applications.
Text: Todd, New Astronomy.
(Senior, Classical). Two periods a week throughout the year.
Descriptive Astronomy.
Text: Todd, New Astronomy.

Biology

COURSE I, (Junior). Two periods a week for two terms.
The aim of this course is to give the students a general knowledge of the Science of Life without entering into the technical problems involved. It will embrace a study of the following points: The Chemical Composition of Living Things, the Cell Theory, the Various Classes of Organisms, the Difference between Plants and Animals, the Origin of Life, Spontaneous Generation, the Theory of Evolution.

There will be sufficient laboratory demonstration to make clear the points studied. Text: Hunter.

COURSE II, (Senior, Scientific). Five periods a week for two terms.

This course is intended especially for the students of the Scientific Department. It will embrace a review of Course I and will devote more time to laboratory work. Various types of unicellular and multicellular organisms will be studied, e. g., Amoeba, Paramoecium, Hydra, Earthworm and Frog. Special attention will be given to the Anatomy, histology and embryology of the Frog. The questions of heredity and variation will be discussed at length. Text: Conn.

Course I is a prerequisite for students wishing to pursue this course.

Physics

COURSE I, (Sophomore). Fours periods a week throughout the year.

Elementary Physics, Mechanics, Heat, Electricity, Sound, Light. A fundamental course of experimental lectures, recitations and problems.

This course is required of all students.

COURSE II, (Junior, Scientific). Four periods a week for two terms.

FIRST TERM—Mechanics and Heat.

Experimental lectures, Recitations, Problems, Laboratory Exercises.

SECOND TERM—Electricity, Sound, Light.

Experimental lectures, Recitations, Problems, Laboratory Exercises.

Texts: Hoadley, Essentials of Physics; Hoadley, Physical Laboratory Handbook.

COURSE III, (Senior, Scientific). Five periods a week throughout the year.

Advanced Physics. This course includes a thorough review of Course II, with more advanced laboratory exercises, most of which will be quantitative.

Text: To be announced.

This course is required of all students of the Scientific Department who do not follow Chemistry III. It may be elected with Chemistry III.

Chemistry

COURSE I, (Freshman) Five periods a week throughout the year.

Introduction to General Chemistry. A course in the fund-

amental principles of the science. The exercises consist of recitations, lectures with demonstations and laboratory work.

Text: McPherson and Henderson, Elementary Study of Chemistry, Laboratory Directions compiled by Instructor. This course is required of all students.

COURSE II, (Sophomore, Scientific). Six periods a week throughout the year.

Advanced Inorganic Chemistry and Qualitative Analysis. This course includes a thorough review of the chemistry of the more common elements, with especial attention to fundamental laws and theories. The laboratory work consists of the systematic study of the reactions, separation and identification of the more common metals and inorganic acids. Text-books to be announced.

Prerequisite, Chemistry I.

COURSE III, (Senior, Scientific). Five periods a week throughout the year.

Elementary Organic Chemistry. A course covering the general principles of Organic Chemistry. The laboratory work consists of the preparation of about thirty compounds. Text-books: Remsen, Organic Chemistry; Orndorff, A Laboratory Manual of Organic Chemistry.

Prerequisite, Chemistry II.

This course is required of all students of the Scientific Department who do not follow Physics III.

In courses II and III arrangements can be made for additional laboratory work.

History

COURSE I, (Freshman). Two periods a week throughout the year. Outlines of Greek and Roman History.

A) From the beginnings of Greece to the Persian Wars.—Prehistoric Greece ; Homeric Culture ; Character of the Greek City-State ; Sparta ; Athens ; Greek Colonization.

B) From the Foundation of Rome to the rise of Julius Caesar—The Monarchy ; Patricians and Plebeians ; The Gallic Invasians ; The Struggles with Carthage ; The Rise of Pompey ; Constitution of the State ; The Roman Army.

COURSE II, (Sophomore, Classical). Two periods a week throughout the year.

A CONTINUATION OF COURSE I.

A—Greek History—From the Persian Wars to the Roman Conquest.—The Invasions of Darius and Xerxes ; The Athenian Empire ; Pericles ; The Peloponnesian War ; The Supremacy

of Sparta; Philip and Alexander; The Roman Conquest; Greek Culture and the Western World.

B—Roman History—From the rise of Julius Caesar to the fall of the Roman Empire of the West.—Conquests of Caesar; His Death; The Empire; Rome under the Caesars; The Introduction of Christianity; Constantine; The Division of the Empire; The Barbaric Invasions; the fall of the Empire.

COURSE III, (Junior, Classical). Two periods a week throughout the year. Mediaeval History—The Development of European Civilization; The Teutonic Races; The Federal System; Monasticism; the Crusades; The Papacy; Church and State; the Temporal Power.

COURSE IV, (Senior, Classical). Two periods a week throughout the year. The Renaissance; The Protestant Upheaval: its Causes and Results; The Council of Trent; The Reformation in England.

Geology

One period a week throughout the year. An elementary course based on Dana's Geological Story. The lectures and recitations will be illustrated with lantern slides.

Christian Doctrine

COURSE I, (Freshman). Two periods a week throughout the the year.

Manual of Christian Doctrine by the Brothers of the Christian Schools, Parts I and II.

COURSE II, (Sophomore). Two periods a week throughout the year.

Manual of Christian Doctrine, Part III.

Catechism of Church History, Oechtering.

COURSE III, (Junior). Two periods a week throughout the year.

Schouppe, Abridged Course of Religious Instruction.

COURSE IV, (Senior). Two periods a week throughout the year.

Schouppe, Abridged Course of Religious Instruction completed.

Elocution

Instruction in the art of speaking is given in all classes, one period a week throughout the year. Students are required to memorize and recite selections from various authors and to prepare frequently talks for delivery in class. Special attention is given to extemporaneous speaking and to methods of debating.

A public contest, open to all students in the Collegiate Department, is held annually. Competitors are required to write their own speeches for delivery on this occasion.

SEMINARY BUILDING

Ecclesiastical Seminary

No one will be admitted into the Seminary who has not finished the studies required for entrance. The applicant should bring testimonial letters from his Pastor, as well as from the Institution or Institutions where he studied before coming to our Seminary. These letters must bear witness to his good moral character and fitness for the service of God in the Sanctuary. He will also bring his Baptism and Confirmation Certificates.

Courses

Dogmatic Theology

The first year (four periods a week) is devoted to Apologetics; during the second, third and fourth year (four periods a week) the tracts are taken up in logical order. Tanquerey is used in both classes, with Mazella, DeAugustinis, etc., for the study of special questions. Theses and examinations are used to grasp the meaning of the matter studied.

Moral Theology

The first year's course embraces the tracts on Human Acts, Law, Conscience, Sin and Vices. During the second, third and fourth year the tracts are taken up in the usual order.

Course for first semester, 1915–1916: Theological and Moral Virtues. Author, Tanquerey; for consultation, Noldin and Lehmkühl. Theses and examinations. Four periods a week.

Sacred Scripture

This course embraces (a) "General Introduction" (Seisenberger; others consulted). There are frequent written theses and examinations. (b) Interpretation of text, especially of St. Paul's Epistles (Piconio and McEvilly). (c) Reading of the entire Bible, with short comments, special attention being paid to the text and meaning of the Psalms.

Three hours a week are given to Scripture study throughout the four years.

Church History

The History course is divided into four epochs: A. D. 1–680; A. D. 680–1054; A. D. 1054–1500; A. D. 1500–1900.

The second epoch (A. D. 680–1054) will be treated during the year 1915–1916.

Frequent disquisitions and examinations.

Canon Law

One period a week during four semesters.

Nature and sources of Canon Law; Ecclesiastical Jurisdiction; the Roman Pontiff; Ecumenical Councils; the Roman Curia; Bishops; the Clerical State; Matrimony; Ecclesiastical Property; Judicial Processes; Crimes; Censures.

Text, Meehan.

Sacred Liturgy

One period a week throughout the year.

Definition of Liturgy; History; Sources; the Sacrifice of the Mass; the Sacraments and Sacramentals; the Divine Office; other Ecclesiastical Functions.

Frequent opportunities are given to assist at the ceremonies of the High Mass and other Church functions.

Fourth-year students are given individual instruction in the ceremonies of the Mass and the administration of the Sacraments.

Text, Wapelhorst. O'Kane and DeHerdt for consultation.

Homiletics

Two periods a week.

Each seminarian is obliged to prepare and deliver one sermon each year. In addition, seminarians are required to prepare a series of sermons every year under the direction of the Reverend Professors of the Seminary.

Pastoral Theology

One period a week for two semesters.

Text, Stang.

Gregorian Chant

One period a week.

Hebrew

One period a week during four semesters.

The elements (Mitchell's Hebrew Lessons) are applied to the translation of selected texts. Some of the Psalms and parts of Genesis are usually chosen for study.

Sacred Art and Archaeology

Periodic Lectures.

Students of Philosophy attend the classes and lectures of the College department.

The Mountaineer

Published by

The Students of Mount St. Mary's College

THE MOUNTAINEER is the recognized organ of the students and Alumni of Mount Saint Mary's College. Its object is literary improvement, the chronicling of interesting events at the College, and the cementing in a more vital bond of fellowship the members of the Alumni, to whom it is invaluable.

Published every month during the school term in the very centre from which all College news emanates, and at the point toward which all Alumni gossip is directed, it is a safe and reliable medium of College information and the only exact chronicler of Alumni news.

Being under the direction of the students, it must rely for its support upon the friends of the College. The aid of the Alumni is therefore respectfully requested and will be greatly appreciated.

St. Joseph's College and Academy for Young Ladies

Emmitsburg, Maryland

This beautiful and commodious institution, fostered in the same nursery as Mount St. Mary's, has always held the highest reputation for the refined and virtuous education given to its pupils. It is situated in a lovely valley at the foot of the Blue Ridge, about two miles from the College, and about one-half mile from Emmitsburg.

The location, as well as the high standing of these two institutions, offers peculiar advantages to parents who have both sons and daughters to be educated, for both may be visited at the same time, and brothers and sisters have the opportunity of seeing one another every week during the course of the academic year,

Letters of inquiry should be addressed to the
